If this is better explained over a phone call, I am happy to have a quick call.

Thanks,

Hi, Himanshu

Have you seen this new "guidance" from PADEP concerning VOC fugitive emissions at natural gas transmission facilities?

**Ex. 5 Deliberative Process (DP)**

## Ex. 5 Deliberative Process (DP)

PADEP is trying to "redefine" what fugitives are for compressor stations so that they are under the applicable threshold of 2.7 TPY and can avoid having to do case-by-case RACT.

Any thoughts? We can talk in person if that's easier.

Thanks!

Emily, Joseph:

See attached for the fugitives guidance the Department. Although it is titled pertaining to RACT II it has long term implications for our §123.1 reg regardless of whether the facility is TV or State Only.
